FULL STACK DEVELOPER

Full Stack Developer with 1+ years of hands-on experience building scalable web applications and APIs. Adept at designing user-focused interfaces and optimizing backend performance. Successfully deployed 5+ full-stack projects with clean architecture and responsive UI/UX.

SKILLS

- **Front-End:** React.js, Tailwind
- **Back-End:** Node.js,
- **Databases:** MongoDB, PostgreSQL, Prisma
- **Development Tools:** Git, GitHub, Vim
- **Infrastructure & Tools:** Docker, Postman
- **Programming Languages:** JavaScript, TypeScript, Python, C
- **Soft Skills:** Problem Solving, Time Management, Communication

PROJECTS

Blogify | React.js, Tailwind / Shadcn, Node.js, PostgreSQL, Prisma   [Link](#)

- Developed and deployed a full-stack blogging platform inspired by Medium with features.
- Built a responsive frontend with React and Tailwind CSS, focusing on clean design and engaging UI/UX animations.
- Implemented a robust backend using RESTful APIs, Prisma ORM, and PostgreSQL for scalable and secure data management.

Budget Tracker | React.js, Tailwind / shadcn, Clerk, PostgreSQL, Prisma   [Link](#)

- A budget tracker application enabling users to effectively manage and track their finances, including income, expenses, and overall budget.
- Uses graphs to provide users with clear visual representations of their income and expenses.
- Used Clerk to implement secure user authentication, guaranteeing security and usability for all users.

Twitter clone | React.js, Tailwind , Node.js, Express, Mongo DB, Mongoose, Cloudinary   [Link](#)

- A Twitter clone where users can post images and text, follow other users, mimicking core Twitter functionalities.
- Implement a responsive front end, and guaranteeing a smooth user experience and effective data flow.
- Strong user authentication was implemented using OAuth and JWT, and RESTful APIs were enhanced for safe and effective data processing.

EDUCATION

Bachelor of Technology in Computer Science and Engineering   2022 - 2026
DCRUST University

- Data Structures, Algorithms, Database Management Systems, Web Development,

12th
Sambhu Dayal Public School

ADDITIONAL INFORMATION

Languages: Proficient in English and Hindi

Interests: Open Source Contribution, Tech Blogging, Community Meetups
